## **Octopus Music**

Welcome to Octopus Music Lessons! We are happy to offer your child a comprehensive music education through our enjoyable music program. We deliver tuition on a number of instruments, and make an effort to cater to all learning styles.

As a form of self-expression and creativity it is ideal for many young people. The study of music by children has been linked to improved **problem solving** skills, **literacy** and **numeracy** skills, better **memory**, greater **social skills** and increased **self esteem** to name a few.

Home practice is an integral part of learning to play a musical instrument, both physically and intellectually, and **it is expected that your child will achieve 5-10 minutes of daily practice**. In addition you might encourage students to listen to music at home!
