

Grades 3 - 6 Acceptable Use Agreement

Computers, Netbooks, Internet and Hand Held Devices

Mickleham Primary School uses the internet as a teaching and learning tool. We see the internet, computers and mobile technology, including Netbooks, as valuable resources, but acknowledge they must be used responsibly.

Your child has been asked to agree to use the internet and mobile technology responsibly at school. Parents should be aware that the nature of the internet means that full protection from inappropriate content can never be guaranteed.

At Mickleham Primary School we:

- have a cybersafe and responsible use program and reinforce the school code of conduct, values and behaviours when students use technology and the internet
- provide a filtered internet service
- provide access to the Department of Education and Early Childhood search engine Connect (www.education.vic.gov.au/primary), which can be used to restrict students to websites that have been teacher recommended and reviewed
- provide supervision and direction in internet activities and when using mobile technologies for learning
- use mobile technologies for educational purposes. e.g. podcasts, photos from excursions
- work towards setting tasks that ask students open questions, so they can't copy and paste all answers from the internet
- provide support to parents through information evenings

Consequences for misuse

Student safety is very important at Mickleham Primary and in order to protect all our students from the potential harm that may be possible through internet use we have consequences for misuse.

We believe it is important for all students to have access to and safely use technologies. . Access to telecommunications will enable students to explore thousands of libraries, databases, the Internet and bulletin boards while exchanging messages with people throughout the world.

The School believes that the benefits to students being able to access and retrieve information from these resources and the opportunities this provides for collaboration exceed the disadvantages. However, access is a privilege and not a right. Access entails responsibility.

All students and families will be required to sign an Acceptable Use Agreement. Any student who does not follow this agreement will have one or more of the following consequences applied:

- The students right to access the internet and the school network of computers and Netbooks will be reviewed
- The students access to the internet will be revoked for a period of one week
- The students access to the internet will be revoked for a period up to one term
- The students access to the internet and the right to take a Netbook home will be revoked for up to one term
- The students access to the internet and the right to take a Netbook home will be revoked for the remainder of the year

In each case whereby a student's access privileges have been revoked the student's access to computers and Netbooks at school will be minimised and used only for specific class work that does not involve any research, email, communication or internet use.
