Viewing the Calendar in the Compass App

The Compass app doesn't have a dedicated calendar view, but you can still see the calendar on your phone or iPad by opening your web browser. To do this, click the 3 little lines (☰) in the top left-hand corner (sometimes called the [hamburger button](#)).

However, if you tap your child's photo in the app it will show their activities for today (including any events) and you can tap the calendar button to move to a different day.
